Nordika

The inspiration comes from the cool simplicity of Scandinavian design and landscape. The plate is a hybrid between a coupe and a rim, a large flat centre and narrow steep rim. This provides the maximum area for presenting food and for easy handling of the plate, a lovely combination of beauty and functionality.

Tramontina Boards

Our Tramontina wooden boards deliver professional quality and long-lasting performance for commercial kitchens and hospitality venues. Manufactured from sustainably sourced teak wood and coated with mineral oil, these boards combine strength with food presentation appeal.

Product Care:

To ensure long-lasting performance and preserve the natural finish of Tramontina wooden boards, please follow these product care guidelines:

- Wash before first use and rinse thoroughly.
- After each use, clean with warm water, mild detergent and a soft sponge; dry immediately with a clean cloth.
- Store in a well ventilated area, avoid enclosed cupboards or drawers.
- Do not wash in a dishwasher or use abrasive pads such as steel wool.
- Do not soak or immerse the board in water.
- Avoid drying in direct sunlight or leaving near heat sources or damp sinks.
- Do not stack boards while wet.
- Do not place in ovens, refrigerators or freezers.

SMART RACK

The Perfect Washing & Sanitary Storage System

Glassware stays clean when in storage, therefore no need to re-wash before use.
Open outer wall is closed & keeps out pollutions, such as dirty water, viruses, insect and pest, contaminant, dust and dirty hand. Clean glassware would need to be washed again after being polluted, it wastes time and money.

Choose the correct rack

- 1 Place your glass (stemware or tumbler) face down on the below diagram to determine the number of compartments.
- 2 Measure the maximum height of the glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.
- 3 Select your preferred coloured base rack.

Ceramic product benefits

microwave
dishwasher safe
oven proof
freezer safe
craze proof
strength
glaze durability

Microwave Safe

All plain white products are completely safe in any microwave oven. Products with metallic decoration however should not be used in microwaves.

Dishwasher Safe

All products are resistant to attack by dishwasher detergents and have been tested to many thousands of cycles.

Oven safe

Our Ceramic bodies are fired at very high temperatures. This makes them oven proof, exceeding the 180 degrees Celsius temperature difference laid down as the European standard.

Freezer Safe

All products can be used in any freezer.

Craze Proof

The body recipes and manufacturing processes utilised in the production of products means they are completely vitrified and therefore totally impervious to water making all items craze proof and very hygienic to use.

Strength

Porcelite products are extremely strong, far exceeding European guidelines for catering ceramics (BS 4034). Both carry a five-year guarantee against edge chipping (on selected items).

Glaze Durability

All products have glazes that have been formulated to withstand the rigours of the catering environment. They will not stain and are resistant to metal marking and abrasion in normal usage.

Product care information

ceramic
acacia wood
cutlery
melamine
glass

Ceramic

All ceramic products are suitable for machine dishwashing.

It is important that the manufacturers washing guidelines be followed at all times. Excessive rinse temperatures i.e. above 60 degrees Celsius and overdosing of detergent will cause damage to the glaze surface.

If removing food residue prior to washing a plastic scraper should be used to avoid damaging the glaze surface. Never use metal utensils or cutlery to clear plates as this can cause metal marking.

Cutlery should never be washed in amongst crockery and specialist cutlery baskets should be used at all times. Do not machine wash crockery with other metal objects such as baking sheets and pans as this can cause metal marking.

Use rubber or plastic mats on stainless steel surfaces and shelving in order to reduce the potential for metal marking.

Cutlery

All cutlery can be washed in a dishwasher.

Never store cutlery in a damp atmosphere as this will cause corrosion. Cutlery should also never be left to soak prior to dishwashing.

Cutlery should be washed as soon as possible after use, if left dirty certain substances in food such as acids and fats can cause corrosion.

Cutlery should be washed in an upright position with the head in an upwards position, in specialist cutlery baskets. Do not overfill cutlery baskets as this restricts water flow during the cleaning process.

Once washed cutlery should be immediately wiped with a clean towel or dried using a cutlery polisher. This will remove any salt residues left after the washing process and prevent corrosion and pitting.

Melamine

All Melamine products can be cleaned in a dishwasher.

Melamine products are not suitable for usage in ovens or microwave ovens.

Do not use abrasive detergents with bleaches, wire scourers or metal implements to clean melamine products as this will scratch the products surface.

Melamine products are suitable for Bain Maries.

Designed to operate in temperatures from -30 to +70 degrees Celsius.

Acacia Wood

Acacia wood is not suitable for washing in commercial dishwashers.

The appearance of the product can be maintained by regularly wiping the surface with vegetable oil.

Under no circumstances should Acacia wood be allowed to soak in water as this will lead to the product warping and splitting.

The product should be hand washed in warm soapy water and dried immediately. As wood is a natural product its surface will mark over a period of time.

Glass

All glasses can be washed through a commercial glass washer.

A non-caustic detergent must be used as caustic detergents can damage the surface of glasses and make them appear dull.

Always wash new glasses prior to their first usage.

Never wash glasses at a temperature of above 60 degrees Celsius as higher temperatures can cause debris to be baked onto glasses. Do not put cold liquids into hot or warm glassware as this can cause glasses to crack, it is also advisable to warm glasses prior to filling them with hot liquid by running them under a hot tap.

Conditions of Sale

- Definitions
- The company - means DPS Tableware Ltd.
The Customer - means the customer of the Company
The contract - means and contact entered into between the Company and the Customer.
The goods - means any goods the subject of any Contract and shall include any parts or parts of the them and any materials incorporated in them.
- Extent of Contract
- The following conditions shall be incorporated in every Contract to the exclusion of all other terms representatives conditions and warranties express or implied by statue or otherwise and together with any acceptance and delivery notes and invoices issued by the Company in connection with the Goods shall constitute the whole of the Contract.
 - The Contract shall not be varied except by the written agreement of the Company.
 - The Contract shall be governed by English law and the parties consent to the exclusive jurisdiction of the English courts in all matters regarding the Contract.
 - Orders should identify the term descriptions and code numbers of the Goods and must be for full standard carton quantities.
 - Requests to cancel Contacts may be refused unless accompanied by payment in full of any charges made by the Company for work undertaken in connection with the Contract and the Company shall have the right to sell any goods not paid for.
 - Prices quoted and descriptions of goods and the Company's conditons of sale may be altered by the Company at any time without notice.
- Acceptance
- No Contract shall come into existence until the Customers order is accepted by the earlier of the Company's written acceptance, the delivery of the Goods, and the Company invoice.
 - Specifications and Publicity Material
 - The Company shall not be liable for any variations in the specification of the goods which do not materially affect the use and operation of the Goods or for the substitution of any materials or component parts of the Goods by other materials or parts of a quality equal or superior to those originally specified.
 - The description and illustrations contained in the Company brochure / price list, and other advertising materials are intended merely to present a general idea of the goods, described in them and shall not form part of the Contract.
- Prices and Payment
- All prices shall be calculated and paid in sterling prices do not include V.A.T or other taxes but do include Standard packaging. Unless otherwise agreed in writing prices include insurance and carriage to destinations in mainland UK but in other cases and in the case of Goods for export are quoted ex works from the company premises.
 - Prices quoted are not fixed and will be those ruling at the date of despatch in respect of the quantity of Goods invoiced irrespective of the quantity for which the price was quoted.
 - Payment must be made strictly Nett monthly.
 - If the customer fails to pay the invoice price by the due date he shall pay interest on the amount unpaid from the date on which payment was due to that on which it is made (whether before or after judgement) at the rate of 3% over our Bankers base rate from time to time in force and the Company may suspend delivery or performance or may terminate the Contact in respect of undelivered Goods without liability to the Company and without prejudice to any claim against the Customer.
 - Samples - All samples will be charged at the customers standard invoice rate plus carriage costs.
- Title
- Title in the goods shall remain in the company and not pass to the Customer (who shall, nevertheless, subject to the conditions stated below, be entitled to resell as principal only in the ordinary course of business) until the Company has received in cash or cleared funds payment in full of the price of the Goods and of all other debts owed to it by the Customer on any account.
 - Until title Passed
 - The customer shall hold the Goods as bailee for the Company and ensure that they are at all times clearly identified as the property of the Company who shall without prejudice to any other remedy, be entitled to maintain an action for the price of the Goods although title in them has not passed to the Customer.
